***CUT-OFF DATE: MARCH 2, 2009***

## **PROCEDURES FOR ENTERING SATELLITES AND FUTURES**

The ITF has implemented the following entry procedures for Men's Satellites and Futures:

- **Only players with an ATP Tour computer ranking need to enter Satellites and Futures events.**
- **Only players with an ATP Tour computer ranking will appear on the Acceptance Lists for Satellites and Futures.**
- **Players WITHOUT an ATP tour computer ranking do not need to enter and will not appear on an Acceptance lists.**

Acceptance lists will be used to determine entries into the Main Draw and Qualifying. All players with a computer ranking who have entered and therefore appear on the Acceptance List will have priority over any un-entered players who appear and sign-in for Qualifying.

**Players without a computer ranking and any un-entered players with a computer ranking are free to turn up on-site for the qualifying sign-in.** The entry selection method at sign-in will be in the following order:

1. Entered players with a computer ranking (using the Acceptance List)
2. Players not entered with a computer ranking (using the latest available computer rankings)
3. Players not entered with a national ranking (using an ITF-produced list of the top 500 in each nation)
4. Players not entered with no computer ranking and no national ranking (drawn by lot)

**Any questions should be directed to the ITF Men's Circuit Department:**

**International Tennis Federation, Bank Lane, Roehampton, London SW15 5XZ, England**
