

**SELECTIONS TO SPORT CANADA**  
**ATHLETE ASSISTANCE PROGRAM (CARDING)**

**For nomination for the 2020 AAP carding cycle**

**Tennis Paralympic Program**

**1. The Program**

1.1 To qualify for the benefits of the Athlete Assistance Program (AAP), Tennis Canada's National High Performance Program must comply with the criteria stipulated by Sport Canada's Athlete Assistance Program. The goal of the Athlete Assistance Program is to contribute to improved Canadian performances at major international sport events such as the Olympic Games, Paralympic Games and World Championships. To this end, the Athlete Assistance Program identifies and supports athletes already at or having the potential to be in the top 16 in the world.

1.2 A maximum of 2 Senior or the equivalent of \$42,360 will be available annually. Sport Canada is currently reviewing the card quotas for all sports. This may affect the number of cards available to the Tennis Paralympic program.

1.3 Senior cards awarded to athletes who meet the SR card criteria for the first time are called C1 cards and are funded at the Development card level.

1.4 First-year Senior (C1) and Development carded athletes will receive a stipend of \$1,060 per month, and all other Senior carded athletes will receive \$1,765 per month. In addition, tuition and deferred tuition benefits are available. For more information please refer to the AAP website at [https://www.canada.ca/content/dam/pch/documents/services/funding/athlete-assistance/athlete\\_assistance\\_program\\_2015-eng.pdf](https://www.canada.ca/content/dam/pch/documents/services/funding/athlete-assistance/athlete_assistance_program_2015-eng.pdf). The carding criteria will be reviewed and updated yearly to reflect any changes in the development and structure of the sport

1.5 Eligible athletes will be nominated to the AAP based on the carding criteria published order of priority (section 3). Should there not be a sufficient number of qualified athletes, meeting the carding criteria, then the 2 cards may not be used.

1.6 The High Performance Committee makes carding selection recommendations to Tennis Canada. Final recommendations to Sport Canada are decided by the Vice-President-High Performance at Tennis Canada. Sport Canada approves all carding decisions.

1.7 For any matters related to the Athlete Assistance Program Nomination or de-carding, all appeals must follow the Policies and Procedures of Sport Canada's Athlete Assistance Program (AAP) Section 13

## **2. General Guidelines**

2.1 To be considered for carding, an athlete must:

- Be a National High Performance Program member who meets the carding criteria,
- Be a permanent resident
- Be a member in good standing☆ with Tennis Canada
- Compete in the 2019 National Championships unless an exemption is approved in advance and in writing by the High Performance Committee. To apply for an exemption a written request must be submitted to the Director of Wheelchair Tennis by October 1.
- Participate fully in the National High Performance Program
- Be eligible to represent Canada in accordance with the ITF rules and regulations stipulated for the World Team Cup and Paralympic Games
- Have his/her annual training and competitive plan approved by the National Coach.

☆*Good standing means understanding and abiding by Tennis Canada/Athlete Agreement, National Program policies, and Tennis Canada Code of Conduct.*

2.2 Carding will be based on a 12-month cycle, starting January 1, 2020 and ending December 31, 2020.

2.4 Athletes' results will be based on the 52 week period from November 1 2018-October 31, 2019.

2.5 Athletes who are awarded carding for a given year and who meet all criteria are not automatically guaranteed carding the following year. However, meeting all criteria will ensure athletes are considered for carding the next year.

## **3. Priorization**

3.1 Athletes will be nominated for carding based on the following priority order:

1. Senior Cards:

- a) Athletes who meet the Senior International Paralympic Years/Non-Paralympic Years (SR1/SR2) carding criteria;
- b) Athletes carded the previous year at SR2 who meet the Injury carding criteria;
- c) Athletes who meet priority #1 of the Senior National carding criteria (SR/C1)
- d) Athletes who meet priority #2 of the Senior National carding criteria (SR/C1)
- e) Athletes carded the previous year at SR/C1 who meet the Injury carding criteria

2. Development Cards

- f) Senior Team Athletes who meet the Development carding criteria for men, women, quad divisions;
- g) Senior Team Athletes carded the previous year at Development who meet the Injury carding criteria for men, women, quad divisions;

- h) Senior Team Athletes who meet the Junior Transition card criteria
- i) Senior Team Athletes carded the previous year at the Junior Transition card level who meet the Injury carding criteria;
- j) Junior Team Athletes who meet the carding criteria for junior boys or girls.
- k) Junior Team Athletes carded the previous year who meet the injury carding criteria for junior boys or girls.

Note: Should a Junior Team Athlete or a Junior Transition Athlete meet the carding criteria for the Senior men's, women's or quad divisions then he/she would be eligible for consideration for carding at that level.

### 3.2 Prioritization: Co-efficient Tie-Break Calculation Prioritization within each carding level (i.e. a), b), c), etc above)

In each lettered carding level above, if there are fewer cards than athletes meeting the respective carding criteria, the following process will be used to prioritize the eligible athletes:

3.2.1. If all remaining athletes are within the same playing division (i.e.-men, women, quad) then priority will be given to the athletes with the highest ITF singles ranking as of October 31, 2019.

3.2.2. If all remaining athletes are in different playing divisions (i.e.-men, women, quad, junior) then the top ITF singles ranked athlete from each playing division will be extracted and grouped with the top ITF singles ranked athlete of the other playing division. Once grouped the following tie-break procedure will be followed:

Athlete with the lowest % difference between his/her October 31, 2019 ITF singles ranking and their applicable AAP Performance Standard. For example player A achieves an October 31 ITF ranking of #44. Her required ranking was #50.  $44 \div 50 = .88$ . Player B achieves an October 31 ITF ranking of #24. His required ranking was #30.  $24 \div 30 = .8$ . Player B has the lowest percentage. He would be carded.

3.2.3. Once an athlete with the lowest coefficient as per above has been determined then all extracted athletes are returned to their respective playing division (i.e.-men, women, quad, junior).

The procedure outlined in 3.2.1 is repeated with the top ITF singles ranked player from each of the remaining playing divisions extracted and group. If after repeating the process there only remain athletes from the same playing division (i.e.-men, women, quad, junior) then the athletes will be ordered in priority based on the highest ITF singles ranking as of October 31, 2019.

3.2.4 In the event that the procedure outlined in 3.2 yields more than one player with the same coefficient then the funding will be divided equally among these players.

## 4. Senior Carding Criteria

### 4.1 Senior International Paralympic Years Carding Criteria (SR1/SR2 Cards):

In Paralympic Games years, athletes who achieve the following performance at the Paralympic Games will be eligible for nomination:

To be eligible an athlete must have competed in at least one live match during the World Team Cup. This section is not applicable to junior World Team Cup teams.

Athletes who do not meet the first year SR or D performance indicators are ineligible for carding consideration based on WTC results.

Athletes who qualify for carding under the Senior International criteria are eligible for two years of AAP support, with the card for the first year referred to as a SR1 Card and the card for the second year referred to as a SR2 Card. The second year is subject to the athlete being re-nominated by Tennis Canada, a training and competitive program approved by Tennis Canada and Sport Canada, signing an Athlete/Tennis Canada agreement, and completing the AAP application form for the year in question.

Injury cards and Paralympic upgrade cards are not included in the calculation of number of years carded at the Development levels. Partial D cards follow the same policy as outlined in the Senior card section.

## **6. Injury Carding Criteria**

Athletes carded the previous year at the SR2, SR, C1 or D card levels and were unable to meet the carding criteria strictly due to health related reasons, may be considered for an Injury Card. The requirements of Sport Canada's Athlete Assistance Program (AAP) policy on the "Curtailed Training and Competition for Health Related Reasons" must be met in order for a player to be nominated for an Injury card. The policy can be found in section 9 of the AAP Policies and Procedures.

### Steps for Injury Card Consideration

1. Athlete to apply to Director, Wheelchair Tennis by October 1.
2. Athlete to send all supporting medical documentation, and a detailed rationale for consideration
3. HP Committee to review and make determination of eligibility

Injury cards will be prioritized based on the process outlined in Section 3. The player's October 31 ITF singles ranking from the previous year will be utilized to determine his/her rank on the priority list.

Injury cards are for a one-year period with the intention that the athlete returns to full time training and competition.

Athletes may be eligible for more than one injury card.

At the end of an injury card cycle, athletes must attain the performance indicator from the year prior in order to be considered for further carding. For example, if an athlete's performance indicator was Top 55 prior to the start of the injury card cycle, then the Top 55 performance indicator would need to be attained as of October 31 in the year of the injury card.
